PROFESSIONAL SUMMARY

Aspiring Cloud Engineer pursuing B.Tech in Information Technology, with hands-on experience in AWS infrastructure provisioning using Terraform, EC2 deployment, and CloudWatch monitoring. Proficient in cloud networking, IAM, Linux administration, and cloud application deployment, with a keen interest in infrastructure automation, cloud security, and reliability engineering.

EDUCATIONS

JIS College of Engineering | MAKAUT | FULL-TIME | Kalyani, West Bengal — 2023 - 2027
B.Tech - Information Technology — *CGPA : 8.43/10.0*

Sainthia High School | WBCHSE | Sainthia, West Bengal — 2023
Higher Secondary Education — *Percentage : 83.8%*

Sainthia Pahari Baba Vidyapith | WBBSE | Sainthia, West Bengal — 2021
Secondary Education — *Percentage : 78%*

PROJECTS

AWS Monitoring & Alerting System | Github Live Demo — Apr 2026 - Present
Individual Project

- **Infrastructure as Code:** Provisioned AWS infrastructure using Terraform, including VPC, subnet, routing, security groups, IAM roles, and EC2.
- **Monitoring & Alerting:** Configured Amazon CloudWatch alarms to monitor CPU (>70%), memory (>80%), and disk utilization (>80%) using native EC2 metrics and the CloudWatch Agent.
- **Email Notifications:** Integrated Amazon SNS with CloudWatch alarms and verified email delivery through a controlled alarm test.
- **Security & Documentation:** Configured restricted SSH access, IMDSv2, and encrypted EBS storage; documented the architecture and project setup on GitHub.

Technologies / Tools Used : *AWS EC2, VPC, Terraform, CloudWatch, SNS, IAM, Linux, Nginx*

Deploying a Scalable Blog/Web Application on AWS | Github — 2025 - 2026
Individual Project

- **Cloud Deployment:** Deployed a blog application on AWS EC2 within a VPC.
- **Load Balancing:** Configured an Application Load Balancer to distribute incoming traffic across EC2 instances.
- **Serverless Integration:** Integrated AWS Lambda, SNS, and SQS for event-driven processing and notifications.
- **Database & Content Delivery:** Used Amazon RDS for relational data, S3 for object storage, and CloudFront for content delivery.

Technologies / Tools Used : *AWS EC2, S3, Lambda, RDS, CloudFront, SNS, SQS, VPC*

SKILLS

Cloud Platforms:	AWS
Infrastructure as Code:	Terraform
Operating Systems: :	Linux, Ubuntu, Amazon Linux
Programming Languages :	Java, SQL
Databases :	MySQL, DynamoDB
Languages :	English, Hindi, Bengali
Tools & Platforms :	Git, GitHub, Docker, VS Code
Core Subjects :	DBMS, CN, OOPS, OS

AWARDS & ACHIEVEMENTS

Programming in Java — Apr 2025
NPTEL

- Achieved **TOP 5%** ranking in the **Programming in Java** course by **NPTEL**.

Cloud Computing — Mar 2026
Tutedude

- Awarded for excellence in **Cloud Computing** by Tutedude.
